REVIEW REPORT ON THE INTERIM CONDENSED FINANCIAL STATEMENTS

**The Unit holders of
FALCOM Saudi Equity Exchange Traded Fund
Riyadh, Kingdom of Saudi Arabia**

Scope of Review

We have reviewed the accompanying interim balance sheet of **FALCOM Saudi Equity Exchange Traded Fund** (the "Fund") managed by FALCOM Financial Services (the "Fund Manager") as at 30 June 2014 and the related interim statements of income, cash flows and changes in net assets attributable to unitholders for the six months period ended 30 June 2014 and the attached notes from (1) to (13) for the six months period then ended which form an integral part of these interim condensed financial statements. These interim condensed financial statements are the responsibility of the Fund Manager and have been prepared by them and submitted to us together with all the information and explanations which we required. Our responsibility is to express a conclusion on these interim condensed financial statements based on our review.

We conducted our review in accordance with the Standard on Review of Interim Financial Reporting issued by the Saudi Organization for Certified Public Accountants (SOCPA). A review consists principally of applying analytical procedures to financial data and information and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying interim condensed financial statements for them to be in conformity with accounting standards generally accepted in the Kingdom of Saudi Arabia.

The objective of the Fund is to passively invest in the listed Saudi equities in order to achieve the results that correspond to the performance of F30 FALCOM Saudi Equity Index, the “Benchmark Index”, which is a free-float market capitalization based index that tracks the performance of top 30 (by free float market capitalization) Shariah compliant Saudi equities (the “Component Securities”) listed on Tadawul.
